

CAMV1 is Innovative Microscopes' newest addition to the Digital Microscope product line. Our customers have asked for measurements, video recording and we finally delivered. The CAMV1 fits on any C-Mount trinocular stereo microscope. There are many accessory options to pair with the CAMV1.

- No external PC needed
- Measurement with simplified calibration
- Video Recording at 1080 resolution
- Image Capture at 1080 resolution
- Image and video file gallery
